

Lens cap holder

Cutting templates

See instructions on:
www.benvelo.com/skottirotta.htm

Webbing/strap width	9 mm	10 mm	12 mm
<p>Fits cord size 2,5 mm and 3/32 inch.</p> <p>Ø 2 mm</p>			
<p>Fits cord size 2,0 mm</p>			

These holes on the "outside" makes it easier to cut out the corners.

Cut out the "cordholder" hole like this. (note the "drop shape" of the hole)

The gap width depends on the cord hardness, start with a thin gap and make it wider if the cord is difficult to remove.

Elastic cord	2,0 mm	2,5 mm
Drill/ punch hole	1,5 mm	2,0 mm

Tips!
 This PDF can be imported into a vector graphics program like Inkscape (free), CorelDraw or Illustrator if you want to change a design or make your own .

Alternative designs
 (these templates fits a 12 mm strap and a 2,5 mm or 3/32 inch cord)
